Research Themes

The Global University Alliance aligns intellectual resources across the academic world to:

RESEARCH: Address research concerns and questions that span from leadership to operational execution concepts, design, functions, tasks, information handling and governance and the relationships between those concepts within leadership and management disciplines.

UNIVERSITY CURRICULUM: Develop university curriculums for General Executive Programs (General Management, Advanced Management Programs), Bachelor and Master level.

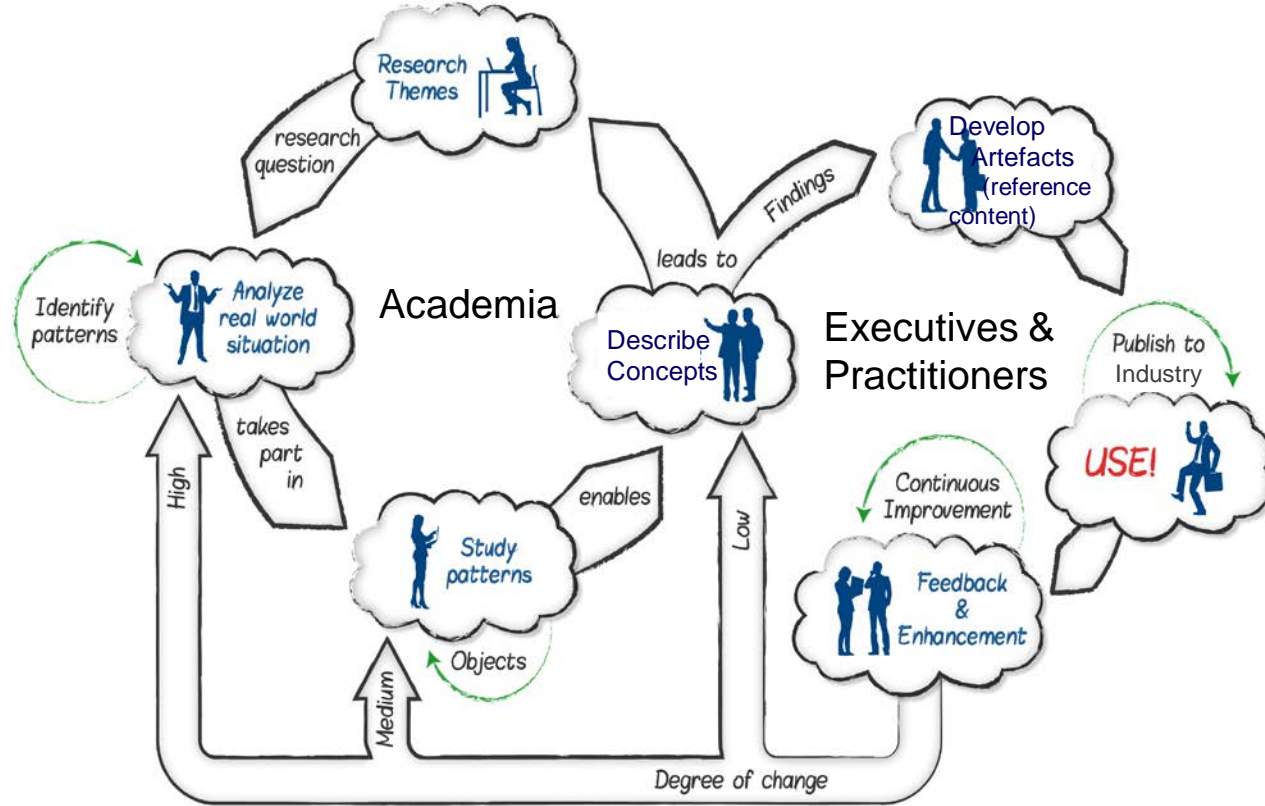

DEVELOP STANDARDS: Package applied academic research and findings into reusable Business and Information Management standards that used by industries and universities alike.

COMMUNITY SHARING: Share and publish the findings either in publications or to the Business & IT community as a whole.

Publications: We publish our research and findings in multiple publications, both together as a research group or as individuals (based on research focus).

LEADING PRACTICE
We set the Enterprise Standards!

THE Open GROUP
Making standards work®

Prof. Mark von Rosing is in every way an innovator affecting standards, frameworks, methods, and approaches internationally. In 1999, he founded the Global University Alliance (GUA), an international consortium of +450 university lecturers and researchers whose aim it is to provide a collaborative platform for academic research and analysis leading to the creation of de-facto enterprise standards.

He has been involved of developing 96 Enterprise Standards and 56 Industry Standards. Founder of 'LEADING Practice' the Enterprise Standard body, and also has had a significant or primary role in developing standards in the following standard bodies:

- **World Wide Web Consortium (W3C):** lead the World Wide Web development to its full potential by developing protocols and guidelines that ensure the long-term growth of the Web/Internet.
- **ISO:** coordinating the development of international standards among various national standards organizations. Currently focused on are ISO 42010, the Systems and Software Engineering Architecture Description, and ISO 279, the Innovation Standard.
- **CEN:** the European Committee for Standardization (CEN, French: Comité Européen de Normalisation). Developing and maintaining coherent sets of standards and specifications across the thirty-three member countries. More than 60,000 technical experts as well as business federations, consumer, and other societal interest organisations are involved in the CEN network that reaches over 460 million people.
- **NATO:** the North Atlantic Treaty Organization; developing standards for the intergovernmental military alliance organizations. Strategy and Performance Management is used for the collective defence joint mission execution, both in mutual defence in response to an attack by any external party as well as for peacekeeping missions. In addition, the standards from LEADING Practice related to capability modelling, joint Business Process Execution and Enterprise Architecture are used as basis for NATO standard development i.e. the NAF 4 (NATO Architecture Framework).
- **Energetics:** Development of the energy standard body, Energetics, Prof. von Rosing is part of developing the energy standards used by countries and companies around the world. This includes the standards used by the upstream oil and gas organizations; providing improvements for their business models, performance concepts, and process and data models.
- **The Information Security Forum (ISF):** development member of the Information Security Forum
- **Object Management Group (OMG):** develop joint standards between OMG and LEADING Practice. This includes:
 - Value Delivery Modeling Language (VDML), Business Motivation Modeling (BMM), Business Process Modeling Notations (BPMN), Decision Model and Notation (DMN) and Risk & Threat Modeling
- **SAP AG** Method developer e.g. ASAP, SAP Agile, BPM, Enterprise Architecture (EAF)

What Horses Teach about Leadership

- Leadership to horses is about respect, directness and trust (not fear).
- **Old school Leadership:** pressure, command, strict requirements and submission
- **BUT:** Leadership through **fear and intimidation** resolves in:
 - Stressful environment
 - Fear
 - Suppressed employees

What Horses Teach about Leadership: Goal

- Advance trust and mutual respect.
- Drive commitment and accountability.
- Communicate more clearly and effectively within and across teams.
- Move more quickly from conflict to resolution.
- Unleash team potential to improve the bottom line.

Canada

LEADING PRACTICE
We set the Enterprise Standards!

Over 35 years experience driving business transformation and enterprise value.

Victor Abele is a professional who bridges the gap between the core management of an enterprise across the business models and architectures associated to the Value model and the processes and IT that enables it. Victor has managed high profile project portfolios, delivering results while developing frameworks for strategy, tactical oversight and operations, including business models/ metamodels, performance measurement frameworks, process models to enable transformation at the whole of government enterprise level down to solutions required for major projects.

- **Senior Director General, Government of Canada**, Reporting directly to the Minister & Queen of England. Responsible for government wide transformation
- **Director General, Canada Border Services Agency**: lead for Traveller Portfolio, leading over 200 staff and multiple complex business transformation and IT projects, including Entry Exit and Advanced Passenger Information with Airlines, Mainframe replacement for 6500 Border Service Officers, Biometrics Expansion and Primary Inspection Kiosks, among other initiatives.
- **Director General, Service Canada**: lead for Service Strategy, Client Satisfaction Office, and lead for transformation of internal financial and human resources services for a 25,000 employee organization
- **Director General, Canada Revenue Agency**: leader for Strategic Planning, Tax Information Management serving millions of Canadian taxpayers and businesses
- **Executive Director, Treasury Board Secretariat**: leader for Government of Canada Service Strategy, Government Online and Service Measurements

Canada Departmental Assistant to the Minister and Deputy Minister

Thierry Jaquelin

Architect

- 1994-1996 Certificate in Advanced Studies in Architecture, (CEAA) school of architecture Grenoble
- Specialty: professions in the history of architecture
- 1983-1991 Studies at the School of Architecture Paris-la-Seine
- Urban restructuring of Mont-Valérien

Historical Researcher

- Transcription of the unpublished seigneurial chart of Roche-Mayet (2017-) transcription of the texts forming the chart, dated 1450 to 1788
- Author of book about the Feudal Traces in the Landscape of the Loir Valley – Research & description of 1200 seigneurial fiefs in the valley of the Loir

Realtor Negotiator

Chateau Le Grand Perray

Chateau Le Grand Perray

The Castle is nestled in the beautiful Loir Valley and close to the historic cities of Tour and Le Mans.

The Castle can accommodate events for up to 130 delegates, with several larger conference, meeting and dining rooms. All of them decorated in the periodic 15th and 18th century style, but modernized to match our 21st century living with electronic equipment for projectors, flat screens, innovation work walls etc.

The castle offers exclusive peace, privacy and space to spread out, but also an opportunity for teambuilding and uninterrupted time to achieve the goals for your company.

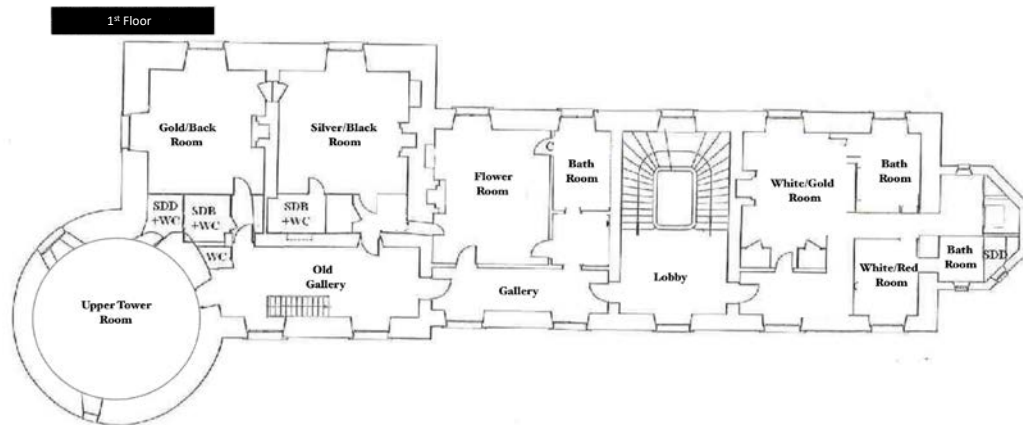

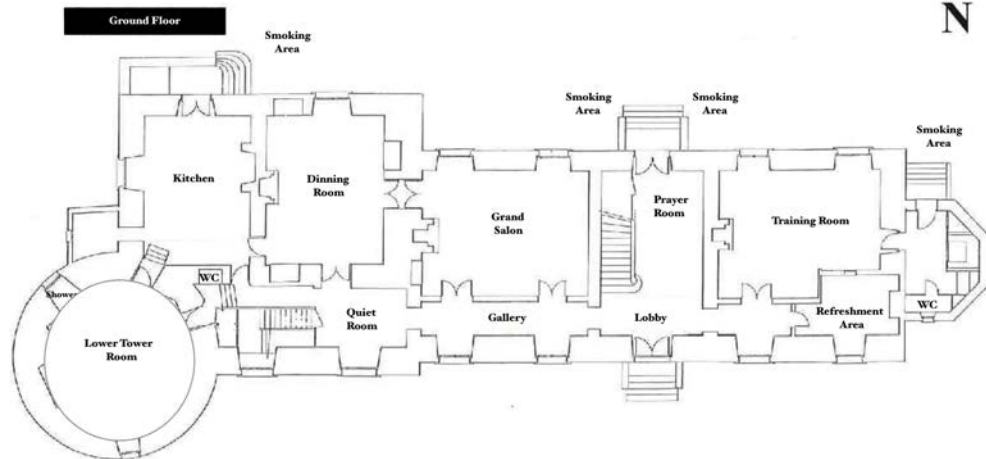

The meeting rooms:

- Large conference room (130 pers.)
- Several meeting rooms (10-50 pers.)
- Several breakout rooms
- The Grand Salon (50 pers.)
- The Dining room (30 pers.)
- Outdoor terraces and castle gardens

Ladder of Inference

The Ladder of Inference – Avoiding ‘Jumping to Conclusions’

Ladder of Inference

The Reflexive Loop – Our beliefs affect what data we select next time

Ladder of Inference

The Reflexive Loop – Our beliefs affect what data we select next time

We live in a world of self-generating beliefs which remain largely untested. We adopt those beliefs because they are based on conclusions, which are inferred from what we observe, plus our past experience.

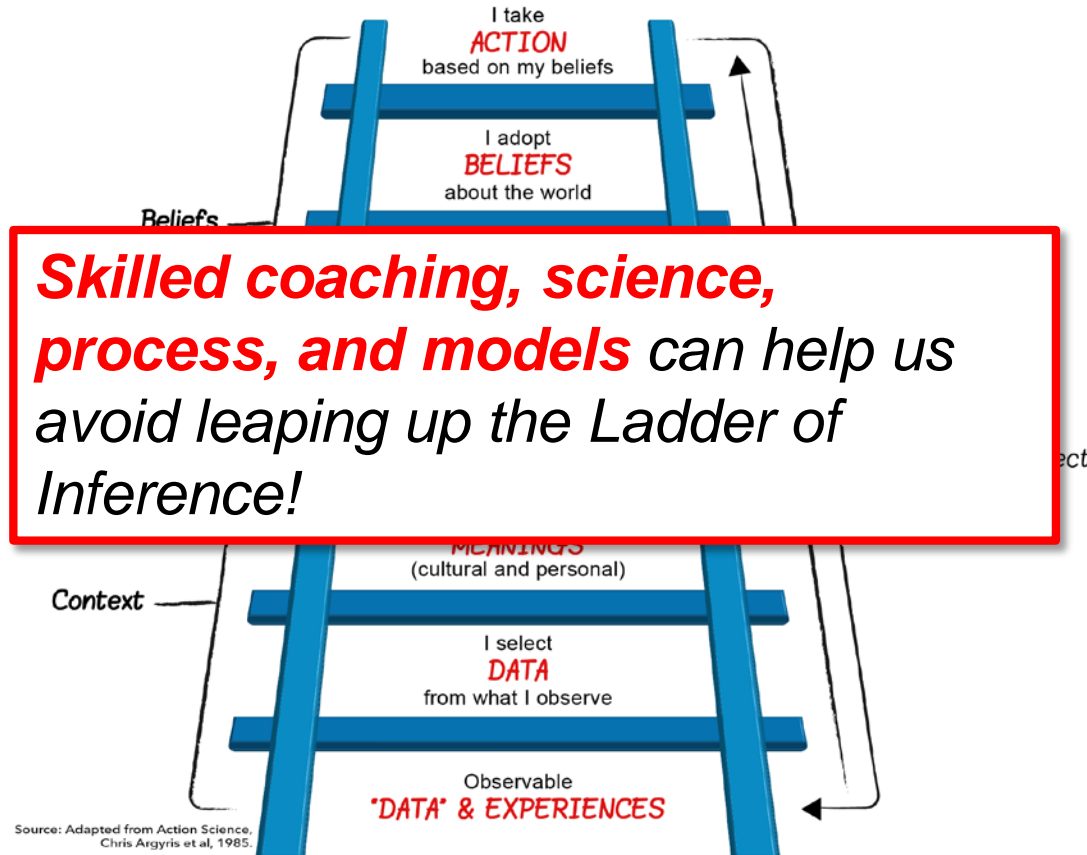

Our ability to achieve the results we truly desire is eroded by our feelings that:

- Our beliefs are the truth.
- The truth is obvious.
- Our beliefs are based on real data.
- The data we select are the real data.

Ladder of Inference

The Reflexive Loop – Our beliefs affect what data we select next time
